RE. Closure-Description Document Approval for System #8 in Building 771

Dear Mr April and Ms North,

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division), has reviewed the Closure Description Document (CDD) for RCRA Closure of Tanks and Ancillary Equipment in System #8 located in Building 771 at the Rocky Flats Environmental Technology Site (the Site). The CDD for System #8 was received on January 7, 1999. System #8 will be closed by the method described as "Unit Removal" in the Site's Interim Status Closure Plan, Section E. As stated in this CDD, ancillary equipment will be removed during phase I of this project. As a result, the tanks associated with System #8 will remain until phase II is complete which is currently scheduled for 2006.

The Division hereby approves the Closure Description Document for Closure of Tanks and Ancillary Equipment in System #8 in Building 771. If you have any questions concerning this matter, please contact Chris Gilbreath at (303) 692-3371.

Sincerely,

Joe Schieffelin
